Notes:

- MATLAB Compiler SDK is not compatible with Python in R2014b or R2015a. The first release that is compatible with Python is R2015b.
- For MATLAB R2019b and earlier, Python Client Library for MATLAB Production Server is only compatible with Python 2.7. For MATLAB R2020a and later, the Python versions supported by the Python Client Library for MATLAB Production Server are identical to those in the table above.
